

OVERVIEW

Paul is an experienced Enterprise Architect, Technologist and Agile Coach with a wide range of experience across small, mid-size and large enterprises. Paul has worked within a broad range of industries including Retail, Logistics, Energy, Agriculture, Healthcare, and Professional Services.

Paul has a holistic end-to-end understanding of business and digital transformations, from strategy through to design and execution.

Paul also has extensive experience in software design, development, and implementation.

EXPERIENCE SUMMARY

Lead Architect, Fragile to Agile:

- Flinders Port Holdings: Lead Architect on the development of an IT strategy and 5-year strategic roadmap to digitally transform FPH's South Australian seaports.
- With a focus on data, intelligence automation and digital twinning, as well as a strong opportunity for workforce optimisation and labour cost reduction.
- Aboitiz Equity Ventures: Lead Architect on the development of business architecture and business intent for a group wide Digital Transformation project

Principal Architect, Fragile to Agile:

- Flinders Port Holdings: Principal Architect supporting the planning and execution of an enterprise-wide Digital Transformation
- Assistance with the strategic planning of core internal capabilities and systems including Workforce Management, Terminal Operations and Logistics
- Development of a Common Data Model and data strategy including required artefacts, personnel and technologies such as Data Warehousing, Data Lakes, Blockchain and Business Intelligence
- Assistance with the establishment of the internal Transformation Office including the development of a resource plan proposing required internal and external resources, key strategic partners, and assistance with recruitment

Enterprise Architect & Agile Coach, DXC Technology:

- Leading large enterprise customers through their digital transformation journeys.
- Building and coaching multi-disciplinary agile teams.
- Using Enterprise Architecture modelling techniques to map customer strategies into capabilities, services, functions, and the resources needed to deliver them.
- Coaching internal and external leadership teams towards an agile, ethical, and people-first work culture.

Enterprise Architect, ECH Inc:

- Supporting the planning and execution of a major Digital Transformation initiative.
- Developing the Enterprise Roadmap and Digital Strategy.
- Designing, scoping, and governing system integration projects.
- Defining, guiding, and managing the overall technology architecture.
- Exploring opportunities to adopt or improve existing solutions and operating models in line with corporate strategy and objectives.
- Ensuring that technology projects align with defined architectural principles.
